

When is a DOT Post Accident Drug Test Required?

Per FMCSA 382.303

- If the accident involved the loss of human life
- If the driver receives a citation, and the accident includes:
 - Bodily injury to a person who receives medical treatment away from the scene
 - One or more vehicles have to be transported away from the scene

Please note that CSS provides a 24 X 7 post accident department to help located testing sites and provide documentation of the required DOT tests.

Our Post Accident contact # **479-770-0501**.
